## THURSDAY ART PLAY: LIGHT DRAWINGS

You can create your own light drawings using any slow shutter phone app or traditional camera with the capacity for a slow shutter speed. We use Slow Shutter Cam.

To get started set your capture mode to Light Trail, your Shutter Speed to 8 seconds and your Light Sensitivity to 1/2. Get your light(s) ready and hit go! You'll have 8 seconds to move your lights around. Once you get the hang of it you can begin to experiment with different settings and shutter speeds.

### WHAT YOU WILL NEED

FLASH LIGHT(S)
